

Folding Maple Leaf

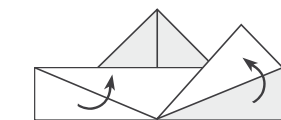

1 Fold the napkin from the centre-fold to the top. Then fold the top right corner down to the centre.

2 Repeat this with the top left corner. Turn the napkin over.

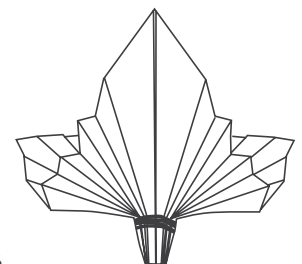

3 Fold the top straight edge over towards the bottom.

4 Then fold the bottom edges diagonally towards the top of the napkin.

5 Accordion fold the resulting shape from left to right.

6 Use ribbon or colored string to tie the base of the napkin together to create the "maple leaf". This completes the arrangement.
