CERTIFICATIONS THAT DRIVE SALES

The products in our collection carry a variety of environmental and quality certifications. Here you can find out what they mean.

We now offer napkins with the OK compost HOME label. You can compost these at home. For instance, by putting them on the compost heap in your garden. This is because they compost at lower temperatures than used for industrial composting.

The Forest Stewardship Council® (FSC®) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Nordic Swan Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of at least 90% renewable materials and minimise soot emissions.

The RAL Quality Mark is awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.
